

Course SCH012: Deafblindness Awareness

COURSE DURATION:

60 minutes

AVAILABLE IN:

- Non-Audio

DELIVERED VIA:

- Intranet
- Internet

This course is designed to either provide a basic awareness of what deafblindness is, or is a reminder of your existing knowledge in deafblindness.

Course Content

- What deafblindness is
- Terminology
- Types of deafblindness
- The impact of a dual sensory loss and the difficulties encountered
- Guidelines for Local Authorities
- Communication and Support
- Where to go for help and advice

By the end of this course you will be able to:

- List the range of different categories and degrees of deafblindness.
- Describe the barriers that disadvantage those people with deafblindness.
- Explain how to communicate more effectively with people with deafblindness
- State where to get further information, advice and support
